Multispectral & Hyperspectral Data Compression Working Group March 2008 Meeting Agenda

(Draft as of March 6, 2008)

March 11 (TUE)	
AM 08:00 - 12:00	Compression results presentation & discussion
	(Aaron Kiely, JPL)
	(Shen-en Qian, CSA)
PM 13:00 – 17:00	Compression results presentation & discussion
	(Carole Thiebaut, CNES)
	(Dimitri Lebedeff, Thales Alenia Space)
March 12 (WED)	
AM 08:00 – 12:00	- "Recent Advances in Ultraspectral Sounder & Hyperspectral
	Imager Data Compression," Prof. Bormin Huang (U. Wisconsin)
	- Distributed Source Coding, Prof. Enrico Magli (Politecnico di
	Torino)
PM 13:00 – 17:00	Create action items
March 13 (THU)	
AM 08:00 – 12:00	open
PM 13:00 – 17:00	open

Following the WG charter, the main objective of the 2008 Spring meeting is to: Evaluate candidate algorithms; present results of candidate algorithms applied to test data sets.

As a preview, main objectives for the next two WG meetings are:

- October 2008: Select approach(es) for standardization, determine color of books, and revise charter if necessary
- January 2009: Write White Book(s)
