

ISO TC20/SC13 Draft RESOLUTIONS from the **34th** International Organization for Standardization (ISO) Technical Committee (TC) 20 Subcommittee (SC) 13 on Space data information transfer systems **Meeting – DIN, Berlin, Germany 21 October 2008:**

SC13-R-2008-10-1	In view of the recent change by ISO Central Secretariat of the initial review of systematic review process of documents from five to three years, ISO TC20/SC13 will be expecting from CCSDS Secretariat consideration to operational procedures on this aspect so that CCSDS originated documents may desirably have their initial review timeline, as possible, in a compatible pace with the one being established by ISO.
SC13-R-2008-10-2	ISO TC20/SC13 is decided to maintain its Internal Liaison with ISO/IEC JTC1/SC29 – Coding of Audio, Picture, Multimedia and Hypermedia Information Subcommittee, in support to CCSDS.
SC13-R-2008-10-3	Implementation of additional ISO TC20/SC13 Web related information contents, departing from its current status, with the purpose of benefitting its access by the pertinent community.
SC13-R-2008-10-4	The Subcommittee resolves to formally thanks DIN and DLR for the excellent facilities and support that made possible the hosting and realization of the ISO TC20/SC13 34th meeting.
