ISO TC 20 / SC 13 Status Report

FOREWORD: This report is being submitted to the coming 48th ISO TC20 Committee on Aircraft and Space Vehicles Plenary Meeting to be held in Bremen, Germany, October 6-8, 2014.

1 Title and Scope

Title: Space data and information transfer systems

Scope: Space data systems

2 Chairman and secretary

Chairman:

Name (tenure): Eduardo Whitaker Bergamini (ABNT/Brazil)
Organization/Country: National Institute for Space Research-INPE (Brazil)
Address: Avenida dos Astronautas, 1758, São José dos Campos,SP, Brazil
Phones/Fax: + 55 12 3208 6166/6603 / Fax: + 55 12 3208 6150
E-mail: e.w.bergamini@uol.com.br

Secretary:

Name (tenure): Mike W. Kearney (ANSI/U.S.A.)
Organization/Country: National Aeronautics and Space Administration-NASA
Address: NASA MSFC EO-01, Huntsville, AL, U.S.A.
Phone: + 1 256 544 2029
E-mail: Mike.Kearney@nasa.gov

Secretariat:

Name (tenure): Nick Tongson (ANSI/U.S.A.)
Organization/Country: American Institute of Aeronautics and Astronautics - AIAA
Address: 1801 Alexander Bell Drive, Suite 500, Reston, VA 20191, U.S.A.

OBSERVATION –

ISO TC20/SC13 Subcommittee Plenary meetings have been occurring under a methodical alternation between Formal and Informal meetings, where Member reports are not expected. For instance, last plenary meeting 45 was a Formal one. Next, Informal meeting that would be held in BSI, in London, U.K., in November 2014 but, it is not going to happen due to the very stringent scheduling that will have to be also observed by the same, main delegates who will also be attending the collocated CCSDS CMC meetings, at the same occasion. The Secretary informed the Chairman of the Subcommittee that ISO requires that at least one Formal meeting may be held, on a yearly basis. This is actually the current status of meetings of the Subcommittee, in 2014. As a result, it is being considered that the subsequent, 46th Subcommittee Plenary meeting, planned to be held May-June, 2015 in Tokyo-Nagano, Japan, will be a Formal one.

4 Participation and liaisons

4.1 P-member bodies

No.	Country	Member Body
1	U.S.A. (+ Secretariat)	ANSI
2	BRAZIL (+ Chairman)	ABNT
3	CHINA	SAC
4	FRANCE	AFNOR
5	GERMANY	DIN
6	INDIA	BIS
7	ISRAEL	SII
8	ITALY	UNI
9	JAPAN	JISC
10	RUSSIAN FEDERATION	GOST R
11	UKRAINE	DTR
12	UNITED KINGDOM	BSI

OBS. – Consistent attendance to the Subcommittee Plenaries have been observed in respect to P-Members 1, 2, 4, 5, 9 and 12 and, to a lesser extent for P-Members 3, 8 and 10.

4.2 O-member bodies

No.	Country	Member Body
1	Argentina	IRAM
2	Belgium	NBN
3	Finland	SFS
4	Kazakhstan	KAZMEMST
5	Korea, Republic of	KATS
6	Poland	PKN
7	Romania	ASRO
8	Sweden	SIS

Total (P + O) = 12/P + 8/O = 20/P+O Members

4.3 Liaisons (Contact)

OBS. – Liaisons of ISO TC20/SC13 Subcommittee are being maintained in close parity with those of the Consultative Committee for Space data Systems – CCSDS.

4.4 Changes since last plenary meeting of ISO/TC 20

Eventual changes have been updated and maintained over the past 12 months.

4.5 Inactive P-member bodies

Justifications of absence have not been received from some of the P-members who have not been attending the Subcommittee Plenary meetings in recent years.

5 Constitution

5.1 Working Groups

The following explanation justifies the reason for maintaining the Subcommittee Working Groups which, in fact, have their executive role directly justified by the corresponding CCSDS Engineering Steering Areas which, in turn, have their many executive Working Groups associated to each of them.

ISO TC20/SC13 Subcommittee performs its functions under the structure and processes of the Consultative Committee for Space Data Systems – CCSDS. The production of documents which are standardized in the ISO domain by means of the ISO TC20/SC13 Subcommittee are, in principle, effectively originated and produced by the many CCSDS technical Working Groups - WGs. CCSDS WGs are “ad-hoc” or temporary technical groups that execute a CCSDS pre-approved program of work. The products generated by CCSDS WGs are: Recommended Standards (Blue Books), Recommended Practices (Magenta Books) and supporting technical (Green Books) documents. The CCSDS products are primarily oriented to guarantee interoperability of space data systems with special attention to cross-support of multilateral agents in the execution of space missions. More details on CCSDS activities that have an impact on ISO TC20/SC13 Subcommittee can be found at the Website www.ccsds.org. Blue and Magenta Books are the CCSDS products that are regularly submitted to DIS stage for processing by ISO, under the services of ISO TC20/SC13 Subcommittee, which observes the principle of the ISO Cover Sheet process.

5.2 Changes since last plenary meeting of ISO/TC 20

There are no changes to report in respect to the constitution of ISO TC20/SC13 Subcommittee over the one year period which is under consideration.

6 Any other matters of importance to ISO/TC 20

6.1 A structured and scalable information system in full operation

At this point in time, the Subcommittee could obtain, after almost four years of a continuous development work, an information system which is formed by structured information items (folders, files, etc.). The structured information items

of the new information system observe are now grouped in a modular fashion which, among other aspects, observe: 1) A convenient creation of a group of folders; 2) A homogeneous naming of files; 3) Scalability of files in a folder. A primary and fundamental work that had to be and was executed as part of the development of this new information system, is directly related to the complete re-encoding and renaming of the old Reference *numbering* and *naming* of items, which observed an encoding format of the type **Naaa** which, till then, used *alphanumeric* code assignments under the mentioned format. The new Reference encoding that was then, since 2012, adopted for ALL the Referenced encoded items, observes the new format **Nnnnn** strictly uses *four digit decimal* numbers in its encoded assignments. The new item Reference encoding format **Nnnnn** is being applied not only for each new items that have been accounted for by the Subcommittee, since 2012, but was also applied, literally, to ALL the already existing, till 2012, Reference encoded items which had been created by the Subcommittee, since its creation, in 1990. Also important to mention that the new, complete listing of the already existing old items, which are now labeled under the new **Nxxxx** Reference encoding format, also *memorizes* the old Reference **Naaa** encoding for each of those items, therefore, covering the *complete* list of items, which also contain a whole new set of more appropriate descriptors for each of the listed items.

6.2 Example of a new structured item in the new information system

An example of a new structured and scalable item which is part of the new information system which is operating in the two Websites of ISO TC20/SC13 Subcommittee illustrates, in this case, the FOLDER which contains all the Subcommittee information packages, in this case, named *Meeting Packages*, which could be compiled and which are being maintained *constantly updated*, after the realization of each new meeting of the Subcommittee. Each *Meeting Package* contained in the associated *folder* can be publicly obtained in one of the two different Subcommittee Website pages (URLs):

7 Programme of work

The **Programme of Work** which is presented below reflects the status of the work items of **ISO TC20/SC13 Subcommittee** in AUGUST 2014. A more detailed presentation of the Subcommittee Program of Work, in this case, associated to its *AUGUST 2014* issue, can be found at the item http://isotc.iso.org/livelink/livelink/fetch/-8790761/8791593/8791604/10035623/46.ISO_TC20-SC13_Program_of_Work_-_AUGUST.2014.V.10.Sep.2014.pdf?nodeid=16791573&vernum=-2, which belongs to a folder which is cumulatively updated on a monthly basis, in this way, containing also the previous monthly issues of the Subcommittee *Program of Work*. The Chairman of ISO TC20/SC13 Subcommittee wishes to mention that, on a monthly basis, if any, the updating inputs for a subsequent Subcommittee Program of Work are regularly provided by Mr. Nick Tongson who works for the secretariat of the Subcommittee. He also wishes to mention the careful and detailed, corresponding work that has been methodically executed on a monthly basis by INPE/Brazil secretary, Ms. Helen Joyce A. F. Leite in the updating work for each new, monthly issue of the Subcommittee Program of Work. This is also the case for her effort in preparing each new version of the Programme of Work for the annual Subcommittee Report to ISO/TC20, which is also the case of the current version of the *Programme of Work* which is being presented, as follows:
