

**ISO/TC20/SC13 Meeting**  
**Matera, Italy, 10 April 2003**  
**Report of US Technical Advisory Group, April 2003**  
Adrian J. Hooke, NASA-JPL (U.S. Representative to ISO-TC20-SC13)

**Meetings**

There have been no meetings during the past six months.

**USCAG13 Membership and Operating Mode**

The membership of the US Technical Advisory Group to SC13 (USTAG13) is unchanged. As noted at the Autumn 2003 meeting there has been a very low level of TC20 activity in the USA because in May 2002 the Society of Automotive Engineers announced that it would no longer act as the US Secretariat for certain TC20 activities – USTAG13 being one of them.

[proces-slide.ppt](#)

During the past 6-months we have completed negotiations for a new USTAG13 Secretariat and we are pleased to announce that the American Institute of Aeronautics and Astronautics (AIAA) is now under contract to NASA and has assumed this role.

**Work Items**

As a consequence of having no US Secretariat, there have been no work items received for review by the US. We intend to get USTAG13 back on track during the next work period.
