

26 January 2007

ISO/TC 20/SC13

**ISO/TC20/SC13 Meeting  
Colorado Springs, USA, 26 January 2007**

**Report of the United States Technical Advisory Group to ISO/TC20/SC13  
September 2006 – January 2007**

**Meetings**

1. USTAG13 held its semi-annual meeting in Houston, Texas on 02-03 November, 2006. The purpose was to develop the official US technical working group positions to be conveyed during the January 2007 CCSDS/SC13 technical meeting series in Colorado Springs.

**Work Items**

1. The following replacements of ISO documents were reviewed and approved by USTAG13 during the work period between October 2006 and January 2007:
  - Withdrawal of ISO 11754: 2003 Space data and information transfer systems -- Telemetry channel coding. Replaced by ISO 22641: 2005
  - Withdrawal of ISO 12171: 2002 Space data and information transfer systems -- Telecommand -- Channel service. Replaced by ISO 22642: 2005
  - Withdrawal of ISO 12172: 2003 Space data and information transfer systems -- Telecommand -- Data routing service. Replaced by ISO 22664: 2005
  - Withdrawal of ISO 12173: 2003 Space data and information transfer systems -- Telecommand -- Command operation procedures. Replaced by ISO 22667: 2005
  - Withdrawal of ISO 12174: 2003 Space data and information transfer systems -- Telecommand -- Architectural specification for the data management service. Replaced by ISO 22646: 2005
  - Withdrawal of ISO 13419: 2003 Space data and information transfer systems -- Packet telemetry. Replaced by ISO 22645: 2005 et 22646: 2005
  - Withdrawal of ISO 13420: 1997 Space data and information transfer systems -- Advanced orbiting systems -- Networks and data links -- Architectural specification. Replaced by ISO 22646: 2005 et 22666: 2005
  - Withdrawal of ISO 17433: 2003 Space data and information transfer systems -- Packet telemetry services. Replaced by ISO 22645: 2005 et 22646: 2005
  - Withdrawal of ISO 11103: 1991 Space data and information transfer systems -- Radio metric and orbit data. Replaced by ISO 22644: 2006
2. The following document was reviewed and approved by USTAG13 during the work period between October 2006 and January 2007:
  - ISO DIS 26868, Space data and information transfer systems — Image data compression

**Respectfully submitted:**

Adrian J. Hooke, U.S. Representative to ISO-TC20-SC13  
Jet Propulsion Laboratory, California Institute of Technology
