

## German report on ISO TC20/SC13

### New Standards

The following standards (1) are gone through a voting process in the reporting period (8.10.07 till 18.06.2008):

**ISO/DIS 22647, *Space Link Identifiers*** (CCSDS 135.0-B-3)

According the German Standardization Institute (DIN, NA 131-06-01 AA) the following ISO/SC13 standards (1) have been published during the review period:

**ISO 22642, Technical Corrigendum 1 *TC Synchronization and Channel Coding*** (CCSDS 231.0-B-1, June 2006) Datenübertragungssysteme für Anwendungen in der Raumfahrt - Telekommando (TC) Synchronisierung und Kanalkodierung; Korrektur 1

### Standards for systematic review

The following documents (6) are gone through an ISO review cycle with a positive vote:

**ISO 14961**, CCSDS 641.0-B-2, PVL (February 2008)

**ISO 22643**, CCSDS 647.3-B-1, DEDSL – XML (May 2008)

**ISO 14721**, CCSDS 650.0-B-1, OAIS (June 2008)

**ISO 15889**, CCSDS 644.0-B-2, EAST (June 2008)

**ISO 21961**, CCSDS 647.1-B-1, DEDSL – Abstract Syntax (June 2008)

**ISO 21962**, CCSDS 647.2-B-1, DEDSL – PVL (June 2008)

### Liaisons

Germany supports a strong relationship with SC14 and ECSS to concentrate standardization effort (no duplicate work). We appreciate that ECSS has approved the liaison with CCSDS on the meeting of their steering group last week.
