The above mentioned ABNT NBR standard results from one of the Projects executed by ABNT CB08/SC010/CE70 - Commission of Study on Space Data and Information Transfer Systems:

ABNT expresses its support to the enhancing of an interface between the ISO TC20/SC13 Subcommittee ISO Livelink Website and the CCSDS Website and, as well, to the continuing effort that may extend the Subcommittee ongoing liaison work with ISO TC20/SC14 Subcommittee, for the sake of the standardization of Space Systems. ABNT also recognizes that due to the wide thematic scope of the ISO TC20/SC13 Subcommittee activity, its liaison with other ISO technical bodies may also be gradually expanded and consolidated.
