

3 November 2009

ISO/TC 20/SC13

**ISO/TC20/SC13 Meeting
ESTEC, Noordwijk, The Netherlands**

**Report of the United States Technical Advisory Group to ISO/TC20/SC13
April 2009 – October 2009**

Meetings

1. USTAG13 held its semi-annual meeting via a two day nationwide teleconference on 30 September – 1 October 2009. The purpose of this meeting was to develop the official US technical working group positions to be conveyed during the November 2009 CCSDS/SC13 technical meeting series at ESTEC, Noordwijk, The Netherlands.

Work Items

1. The following documents will be reviewed by USTAG13 and a response submitted to ISO:
 - ISO/DIS 13526: Space data and information transfer systems – Tracking data message (ballot due 6 January 2010)
 - ISO/DIS 13527: Space data and information transfer systems – XML formatted data unit (XFDU) structure and construction rules (ballot due 6 January 2010)
 - ISO/DIS 13537: Space data and information transfer systems – Reference architecture for space data systems (ballot due 6 January 2010)
 - ISO/DIS 13541: Space data and information transfer systems – Altitude data message (ballot due 6 January 2010)
 - ISO 12175:1994 (vers 3): Space data and information transfer systems – Standard formatted data units – Structure and construction rules (ballot due 15 December 2009)
 - ISO 13764:1996 (vers 3): Space data and information transfer systems – Standard formatted data units – Control authority procedures (ballot due 15 December 2009)
 - ISO 14962:1997 (vers 3): Space data and information transfer systems – ACSII encoded English (ballot due 15 December 2009)
 - ISO 21459:2006: Space data and information transfer systems – Proximity-1 space link protocol – Coding and synchronization sublayer (ballot due 15 December 2009)

Respectfully submitted:

Adrian J. Hooke, U.S. Representative to ISO-TC20-SC13
NASA Headquarters, Washington DC
