

DDOR WG Agenda, Fall 2018

DAY1 (Wednesday 17-OCT) - AM

- Introduction of new WG members
- Status of DDOR cross support in NASA
- Status of DDOR cross support in ESA
- Status of DDOR cross support in JAXA

DAY1 - PM

- Review of Action Items (All)
- Discuss opportunities for DDOR interoperability testing between NASA/ESA/JAXA (All)
- Review of GB Issue 2 revisions (All)

DAY2 (Thursday 18-OCT) - AM

- Status of XKa work with NASA/ESA
- ESA report on possible upgrades to Malargüe IF bandwidth and Network connection
- Potential for XKa collaboration between NASA/JAXA using Usuda 54-m
- JAXA to report status of 54-m at Usuda

DAY2 - PM

- Review of proposed CSTS D-DOR Data Service (e.g. file transfer standard)
- Status of Water Vapor Radiometer deployments by NASA/ESA/JAXA
- Status of PN DOR modifications at ESA
- Status of PN DOR modifications at JPL

DAY3 (Friday 19-OCT) - AM

- Overview of the new ICRF-3 standard, including its move to multi-wavelength (8, 24, 32 GHz) (NASA)
- VLBI vs. Gaia optical comparisons as a way to quantify systematics in the VLBI technique (NASA)

DAY3 - PM

- AOB/miscellanea
- Assignment of actions (All)
- Review of schedule (All)
- Finalisation of MoM and Presentation for SEA plenary meeting (All)

DAY3 - Late afternoon

- Participation in SEA plenary session
