

# CCSDS CFDP WG – Fall Meetings 2022 – Agenda

The WG will meet on **Friday, 21/10/22, 09:00 – 12:30** in a hybrid meeting (Toulouse & MS Teams, see invite below).

1) (Minor) updates to the standard: I have uploaded an Excel table with proposed updates / clarification to CWE:  
[https://cwe.ccsds.org/sis/layouts/15/WopiFrame.aspx?sourcedoc={8DA80082-6140-43CB-ADE8-4D2F463C0C31}&file=B5\\_ProposedUpdates\\_V2.xlsx&action=default](https://cwe.ccsds.org/sis/layouts/15/WopiFrame.aspx?sourcedoc={8DA80082-6140-43CB-ADE8-4D2F463C0C31}&file=B5_ProposedUpdates_V2.xlsx&action=default)

Please have a look and add any additional proposals to the table. We might want to start pink sheets for these small updates.

2) Introduction of a light CFDP Class 1 version, e.g. for running over BP or LTP (@Cheol: Please let me know if you want to present something)

- 3) CFDP PDU embedding into
- EPP / SPP (update to CCSDS 722.1-M-1 ?)
  - BP
  - LTP
  - TCP/IP ? UDP ?

This all seems pretty straightforward but it is currently not really specified in CCSDS (besides EPP/SPP). For BP and LTP we might want to have the option to aggregate complete CFDP PDU into a single bundle / LTP block. This might go to a Magenta Book or Annexes of the standard.

4) AOB

Please let me know if you have additional topics to discuss.
